

Press release Mijdrecht 06 July 2009

A major fire occurred at Colombier International facility in Mijdrecht The Netherlands on Friday the 3rd of July. The fire destroyed a substantial amount of the raw material.

No one was hurt in the fire, and the production facilities, offices and all the ready material remain unharmed. Production resumed partially on the same day, and the return to regular production schedule is expected to take place by the end of this week.

Office staff remain normally at work.

The full impact of the fire is still unclear, but the personnel is committed to minimising any disturbances to the delivery schedules of the company's products and services.

The cause of the fire is still unknown.
